QUICK TIPS BEFORE YOU ZIP UP YOUR BAGS

- Checked luggage can take up to 8 hours to reach your cabin - keep documents, meds, and a change of clothes in your carry-on.
- Curling irons and flat irons are fine; steamers are not.
- Beach towels, shampoo, and body wash are already provided in your cabin - no need to pack your own.
- Label every checked bag with your name, ship name, and cabin number before handing it to the porter.
